FAILED TO MAKE GOOD

Manufacturers Did Not Start Up the Mills With Nonunion Men.

SITUATION SAME AT STORM CENTERS

No Outside Help Brought Into Wellsville or McKeesport—Tub Plant Organized—President Shaffer's Views.

Pittsburg, July 22.—In the steel strike situation, Wellsville, Ohio, and McKeesport are still the points of interest. The situation at Wellsville is not materially changed from the conditions of last week. Notwithstanding the rumors of last week to the effect that the six mills of the Wellsville plant would be running in full Monday, such is not the case. No outside men were brought in and only mills 1, 2 and 4 are in operation. A number of the mill men who recently joined the Amalgamated association are in sore straits to know what to do in the present difficulty. They want to work but their pride will not permit them to violate the contract which they recently entered into with the Amalgamated association. Great influence is being brought to bear upon them by the friends of the Amalgamated association and by the mill men.

At McKeesport everything is black. The Dewesse Wood company did not make any attempt to go into operation as was expected. Hundreds of men were parading the streets, watching the railroads and even watching the river bank, because it was said the men would be brought in by boat up the Monongahela river. This demonstration on the part of the men, while it is done in an orderly manner and the orders of the Amalgamated officials are being obeyed, is looked upon as ominous, because if the company should make an attempt to bring new men into the mill it is not unlikely that the strikers will make resistance.

The Amalgamated people are greatly elated over the fact that they succeeded in organizing a lodge among the employees of the National Tube works. The formation of this new lodge may extend the conflict to that plant, inasmuch as the Amalgamated association officials say they would undoubtedly protect these men by calling out all the workers at the mill in case the company discharged them for having joined the union.

The situation through Pittsburg and Allegheny in the strike district was about the same as Saturday. Contrary to the expectations of many, no effort was made on the part of any of the plants to run.

Would Welcome Mediation. With reference to the statements of John M. Farquhar, a member of the industrial commission, which were sent out from Washington in which it was inferred that there might be a movement in progress by the officials of that commission to bring about mediation in the present strike, Mr. Shaffer said: "If Mr. Farquhar is quoted correctly and is endeavoring to bring about an adjustment of this strike, I believe that if he puts the same assiduous efforts into his task as he did when he questioned me during the sessions of the commission, he will accomplish some good results. I do not know if he is attempting any such movement, as he has not communicated with me or any of the officials of the Amalgamated association."

In commenting on the possibility of the National Tube company discharging the men who joined the Amalgamated association, Mr. Shaffer said: "If the company should discharge these men we shall have to protect them, and as we consider discharge under these circumstances grounds for enforcing article 19, section 35, we should have to request the reinstatement of those men and their recognition as members. If that were not done we should be compelled to call out all Amalgamated men working in the plants of the National Tube company."

While still hoping for an early settlement of the strike, Mr. Shaffer would not say that any steps had been taken in this direction and so far as the general officers of the Amalgamated association were concerned, they all declared that they had not been approached by any person or persons on this subject.

Mill Did Not Start. Cleveland, July 22.—Contrary to the agreement of several days ago, the hoop mill that the United States Steel corporation has been equipping in this city during the past week to manufacture cotton ties, did not begin operations. Vice President Kard of the Amalgamated association declared that the mill was not started because the company did not have a sufficient number of experienced men to oper-

ate it. Officials of the company declined to discuss the matter or to say when an attempt would be made to operate the mill.

Strikers Taken Back. Scranton, Pa., July 22.—The striking boiler-makers, machinists and foundrymen at the shops of the Delaware, Lackawanna and Western Railway company returned to work at the old rate of wages, notices having been posted by the company, following a decision of the men to return, that all of the 573 who went on strike eight weeks ago would be taken back. Two men were discharged for cause. The 900 men employed by the Allis-Chalmers company remain out pending a settlement at the shops of the company in other cities.

BOTH BADLY WOUNDED.

A Deplorable Tragedy Enacted Near Burtonville Sunday Afternoon—Quarrelled Over a Woman.

News of a deplorable shooting affray near Burtonville Sunday afternoon reached Maysville Monday.

The participants were John Jackson (or Johnson) and a man named Scott. According to the information at hand, Jackson has been boarding at Scott's home, and it is claimed had become too intimate with the latter's wife.

The trouble which had been brewing for some time culminated in a shooting affray sometime Sunday afternoon. Scott was wounded in the right eye and in the mouth, while Jackson received two wounds in the stomach and abdomen.

After the shooting Jackson was able to make his way to the hills near by where he was found by Deputy Sheriff Bowman. Scott's wife was with Jackson when the officer found her.

After placing them under arrest, the officer proceeded to the house where he found Scott lying in the yard unconscious.

Scott's two little children, one six and the other two or three years old, were found under a bed in one of the rooms where they, in their fright, had hidden themselves.

The men were still alive this morning, but it is thought their wounds will prove fatal.

A LONG DRIVE.

A Former Resident of This Section Comes From St. Louis in a Buggy.

A gentleman by the name of Lane passed through the city Monday, having driven in a buggy from his home at St. Louis. He was on his way to Washington, Mayslick and points in other counties, where he has relatives.

Mr. Lane was raised at Logan's Gap, below this city on the Ohio side, and his wife was a Miss Howard, of Bath County. He has made his home at St. Louis since before the war, and is a member of the Legislature from that county. He will write an account of his trip for a St. Louis paper, returning through this city in a few weeks on his way home.

Perry Arms, Sallie Stone and John Dewey were on trial in the Police Court last evening charged with robbing Edward Trainer of \$50. The alleged theft was committed Saturday night in Kammner's saloon at the foot of Market street. The trial was not completed last evening. Mr. L. W. Galbraith is presiding as special Judge.

STRIPPED IT CLEAN.

A Pest Resembling the Army Worm Makes Its Appearance Near Minerva.

Rev. Robert Tolle, who returned from Minerva Monday, reports that the army worm, or a pest similar to it, has appeared in that portion of the county.

They struck a field of three or four acres of millet on Mr. Thos. Robertson's farm a few days ago and stripped the stalks clean.

As Mr. Tolle was driving past the field Monday he reports that the pike was literally covered with the pests crossing to an adjoining field.

Mr. Paul Wisenall, of Covington, has a Government position at Havana, Cuba. He is at Covington on a vacation.

Washington, July 22.—Captain Edward Burn, in charge of the river and harbor work in the St. Louis district, in his annual report, recommends an appropriation for the next fiscal year of \$1,000,000 for the Mississippi river between the Ohio and Missouri rivers. Of this \$850,000 is to be for improvement and \$150,000 for maintenance.

PROSECUTION AT REST

In the Trial of Fosburg, Charged With Killing His Sister.

INTERESTING TESTIMONY OFFERED.

Was the Tragedy the Result of a Visit of Burglars or a Family Row?—Story of a Brother and the Physician.

Pittsfield, Mass., July 22.—With three steps in its case against Robert S. Fosburg, the alleged slayer of his sister May, apparently well fortified, the prosecution concluded its case at the third day's session of the trial of young Fosburg for manslaughter. Nelson J. Hall of this city, told of a visit to the Fosburg house at 4 o'clock on the morning following the shooting. He found a pair of half hose with white dots, he said, on the grass near the edge of the road. The half hose were well worn on the bottom. Further on he picked up a single sock. The half hose were identified in court by witness as the ones he found. The tracks of bare feet were also noticed in the road. They were about 10 inches long and quite broad. They disappeared at the bend of the road.

The finding of a pair of trousers and of the pillow case which is said to have been used as a mask by one of the burglars, was then given by those who picked them up and the articles were shown and identified.

Dr. W. W. Schofield, who has been looked upon as an important witness for the state, was then called. Dr. Schofield told of being called to the Fosburg house at 1:30 o'clock a. m. and of finding two officers on guard when he reached there at 2 o'clock. Witness entered the house and at once went upstairs. On the floor of the bedroom he saw the body of a girl covered with a sheet and with a pillow under the head. Blood was oozing from the mouth and from the wound. He examined the body and was convinced it was dead.

The witness said he saw two women on the bed and the defendant standing in a doorway. The other members of the family were in adjoining room. Witness said the elder Fosburg declared to him that he was lying in bed in his room on his left side facing the door. He suddenly awoke to find a man standing in front of him with a revolver in one hand and a lantern in the other. The revolver was within a foot of his head. He sprang up and struck the arm, which held the revolver, and then grappled with the intruder. Suddenly he was struck on the head and knew nothing for a few moments. When he recovered he found his son, the defendant, had been similarly assaulted. Dr. Schofield described the terrible wounds which he found on the head of each.

Police Officer George B. Chapman gave an entirely new bit of evidence. He stated that he found a number of matches of a different make from those used by his family, in a bedroom of his house and near the doorstep outside, on the next morning after the Fosburg shooting. Witness said his wife declared there must have been burglars in the house that night. Matches found in the Fosburg house were similar to those found by Mr. Chapman.

The examination of James Fosburg, a brother of the accused man, then began and it was conducted by District Attorney Hammond. Witness said he was awakened by a terrible shriek, coming apparently from his father's room. He rushed up the front stairs, turning on various lights as he ran. He was met at the head of the stairs by his sister-in-law, who screamed: "Your father's gone crazy." He brushed her aside and went on to his sister May's room. She was lying on the floor. "I saw brother Robert," said he, "come into the room behind my father. He was staggering and when in the middle of the room, he collapsed and fell to the floor, his head resting near my sister's, but his body in an opposite direction."

Lively Week at the Pan.

Buffalo, July 22.—The cool breezes which have been such a feature of Buffalo weather for the past week proved to be quite a drawing card for the Pan-American exposition. During the present week interesting events crowd each other in quick succession. Members of the Catholic Mutual Benefit association will throng the streets of the Rainbow City on Tuesday. Wednesday the Knights of Columbus and Utah people will unite their forces; Thursday will be Scandinavian day and Porto Rico day. Governor Allen will be at the exposition for the celebration of Porto Rico day. Saturday will be marked by the dedication of the Wisconsin state building.

Free Trade With Porto Rico. Canton, O., July 22.—Governor

Charles Allen of Porto Rico arrived here from the east and presented to President McKinley the resolution adopted by the legislature of Porto Rico, providing a system of local taxation for the island such as under the act of congress entitles the island to free trade with the United States. The president's official acknowledgment of this resolution will be made July 25, when a proclamation will be issued declaring free trade between the United States and Porto Rico.

SHANNON'S SHOOT.

Arranging For an All-Day Tournament Aug. 3rd—Last Saturday's Scores.

The shoot given by the Shannon club Saturday was at twenty-five targets, resulting in the following scores:

A Small Strike at the Cotton Mills.

Some of the hands employed at the Maysville cotton mill struck Monday for higher wages. There were nine of them, mostly from the "picker room" and they forced some others to join them, it is said.

The strike interfered but little with the operation of the mill. It continued running and is in operation to-day with a full crew. Some of the hands who were forced out were taken back this morning.

IN A TENEMENT BLAZE

A Whole Family Is Caught and Four Members are Burned to Death.

MOTHER USED OIL TO QUICKEN A FIRE

A Terrific Explosion Followed, the Room Soon Being Enveloped in Flames—Father Escapes With Severe Burns.

Pittsburg, July 22.—A whole family was burned in a Pennsylvania tenement fire. The mother and three children are dead and the husband is badly burned and is now at the hospital. The explosion of an oil can was the cause of the fire. The dead: Mrs. Sophia Ratza, 30, mother of the children; Viola Ratza, 8; Kashner Ratza, 5; Wabock Ratza, 2. The injured: Francis Ratza, husband and father of the family, badly burned, removed to the West Pennsylvania hospital. It is said he will recover.

Mrs. Ratza was preparing a meal in her apartments on the third floor of the tenement house. The fire in the kitchen stove was not burning as quickly as she wanted it to, and she took an oil can and poured some of the oil on the fire. In a moment a blaze from the grate of the stove ignited the oil in the can and an explosion, which was heard throughout the house, followed.

The burning oil was scattered over the room, setting fire to the clothes of Mrs. Ratza and the children. The husband was in an adjoining room and his injuries were sustained while trying to save his wife and children. The house in which the fire occurred was a two and a half story frame. It was owned by Mrs. Barbara Zankle, who conducted a bake shop on the first floor. The loss is placed at \$1,500. The house was occupied by three families, but the only persons injured were the Ratzas. The bodies of the four victims were removed to the morgue.

MERCILESS BANDITTI

Overrun Provinces in Central China.

A Bloody Conflict.

Peking, July 22.—Disaffection caused by banditti is prevalent in 30 districts in the central part of the province of Chi Li. The local officials are either disinclined or unable to suppress the trouble. Li Hung Chang as viceroy is too busy to attend to provincial matters. The troops sent against the banditti showed sympathy for them, many of them having formerly been soldiers. They are better armed than the troops. In a recent conflict a hundred soldiers and officers were killed. The troops of Yuan Shih Kih, governor of Shan Tung, are the only ones that can be trusted to act. The result of despatching some of them to quell the disaffection is not yet known. Even if successful in one district an uprising is likely to occur as soon as they depart for another. Complete pacification will be extremely difficult. Official appeals are constantly reaching Li Hung Chang.

Plates Were Not Destroyed.

Washington, July 22.—Chief Wilkie, of the secret service, has received a number of bank notes printed from the original plates used by the state bank of New Brunswick, N. J., over 50 years ago. The bank went out of existence some time in the fifties, and it was supposed that the steel plates on which the notes were printed were destroyed. It seems, however, that these plates have fallen into the hands of parties who have printed from them large quantities of notes which have been put into circulation from New York to San Francisco. A very large percentage of the notes so far discovered are two, although some ones and fives are being sent in. Inasmuch as the notes are not counterfeits of any United States note or obligation, the makers and passers cannot be prosecuted under the United States laws, but it is said they can be punished for fraud under the state laws.

Bryan Discourages the "Boit."

Cleveland, July 22.—By a letter to C. A. Groot, prominent in "Bryanite boit" in Ohio, W. J. Bryan has thrown cold water on the entire movement. In no uncertain language he informs the bolters that they can expect no sympathy from him. While not pleased with the repudiation of the Kansas City platform by Ohio Democrats, Mr. Bryan emphatically sets his seal of disapproval upon any move calculated to do possible harm to the Democratic ticket as nominated. The letter of Mr. Bryan came as an answer to the letter written to him by Mr. Groot.

Plymouth, July 22.—The Orient steamer Ormuz from Sydney for London, landed here two persons supposed to be suffering from bubonic plague. One case developed after leaving Marseilles.

A SCORCHER.

Monday the Hottest Ever Known at This Point—Temperature Up to 108°.

All local records for hot weather were smashed Monday, the temperature being the highest ever known at this point.

At 7 a. m. the temperature was 80°, but the mercury soon got a move on and at 12 o'clock noon the local weather observer reports that the 105° notch had been reached. It still kept climbing and during the afternoon reached 108°. It really went beyond that notch a half degree, but it goes on record as 108°.

A temperature of 114° is reported at Moransburg.

During the afternoon the heat was something terrific. The hot air off the streets as it entered residences, offices and business houses felt like the heat from a bake oven.

At 7 p. m. there was a light shower from the northwest, which cooled things slightly.

The lowest point reached last night was 73°, which was the hottest night of the year.

Miss Mamie Key left Monday to travel for a New York perfumery house.

Trouble of a Minister.

To benefit others Rev. J. T. W. Vernon, of Hartwell, Ga., writes: "For a long time I had a running sore on my leg. I tried many remedies without benefit, until I used a bottle of Electric Bitters and a box of Bucklen's Arnica Salve, which cured me sound and well." Sores, eruptions, boils, eczema, tetter, salt rheum show impure blood. Thousands have found in Electric Bitters a grand blood purifier that absolutely cures these troubles. Satisfaction is guaranteed or money refunded by J. Jas. Wood & Son. Large bottles only 50c.

A PEEP AT PRETTY SUMMER FOOTWEAR

Can be had at the Sensational Sale of Ladies' and Gentlemen's fine, stylish low-cut Shoes and Oxfords beginning at our store to-morrow (Saturday) morning. The goods, which are all newly-made for this season, have been marked at about one-third of their usual selling price and are really better values than we have shown in our previous sales. We purchased several hundred pairs for this special occasion—just the right sort for summer wear—and bought them at a low figure on account of the advanced season. We are willing to share our good fortune with you and are anxious to show how little really good Shoes cost here. The list that follows tells the story:

FOR \$1.98—Women's pretty Vici, Ideal Kid and Patent Leather Oxfords, welts and turns. Would be cheap at \$2.50.
FOR \$1.48—Women's Oxfords, lace and buttons, Cuban, Military and French heels. You wouldn't refuse them at \$2.
FOR \$1.25—Women's All Patent Leather Oxfords. The price is small, but the bargain is big at this figure.
FOR 98 CENTS—Women's Oxfords, all styles and shapes. \$1.25 is often asked for same quality elsewhere.

FOR \$2.48—We offer gentlemen's very swell Patent Kid-Oxfords that were made to sell at \$3.
FOR \$1.95—Men's handsome Enamel Calf Oxfords that earlier in the season would easily bring \$2.50.
FOR \$1.48—Men's nice Vici Kid, black and tan, Southern Ties and Oxfords, well worth \$2.
FOR \$1.98—Men's substantial Tan Welt Bals, a bargain because they ought to be worth \$3.50.

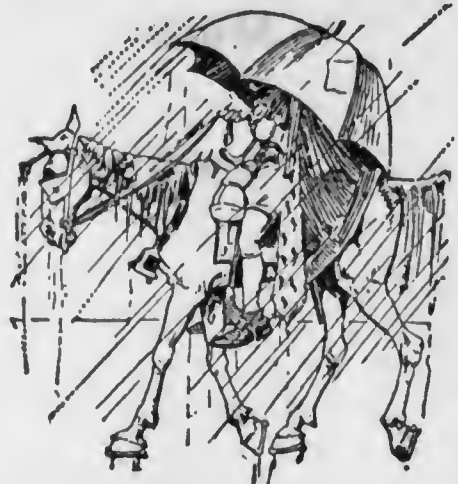

BARKLEY'S

IN THIS SALE

Are some Women's Chocolate and Patent Tip Oxfords, quite good, that go at 75c.; Misses' and Children's Tan Slippers at 35c and 40c.; Men's Dongola Bals for 75c.; Men's Work Shoes, whole stock, worth \$1.35, at 85c., and Men's and Boys' Tennis Oxfords at only 25c.

A copious downpour would be most welcome just now, but for the stomach's sake get ready for the showers that will come by and by. To have pure water, equip your well or cistern with the

I. X. L. PATENT GALVANIZED STEEL CHAIN PUMP CURB AND GAL- VANIZED STEEL TUBING.

This tubing does not make the water taste as wood tubing does, and it will not rust, being made of the best galvanized steel. Will not rot or accumulate filth and leaves the water clear and pure. In addition to the I. X. L., we also sell the CYPRESS RUBBER BUCKET PUMP. Both are good.

PUT YOUR MONEY IN AMERICAN WIRE FIELD FENCE and you will not regret the investment. The two-car-load shipment is being cleaned up fast, but we can supply all widths for a short time longer. First come, first served, as usual.

Not since the days of the Morning Mail, save the Enquirer, has the Maysville trade had a packet to fill the requirements like the Tacoma. In and out with all the regularity of the clock, room for

cargo and stock below, and a clear boiler deck and guards for people, who are landed before 7 every evening.

The towboat men on the Kanawha say that the Government dredges and tender, Bee are doing splendid work up that river and that the shore cuts that have been taken off Two Mile and Island will make them so that a tow will now drift

in, where before it took much maneuvering to get the down stream barges into the channel.

Enquirer: "Henry McClanahan, engineer of the City of Louisville, certainly has a record when it comes to rod and stem packing when the work of the thirty-inch cylinders of the Louisville are considered. It is said that the caps

CINCINNATI TOBACCO MARKET.

Light Offerings and Decreased Receipts a
Feature of the Last Week.
Prices Firm.

	Week.	1901.	1900.
Offerings of old.....	563	1,118	
Offerings of new.....	81	285	

Actual sales..... 482 833
Per cent. rejections..... 14 25 1/2
Receipts..... 1,404 1,216

The weekly circular of the warehouse interests
says in part:

"There was not much variation to record in
the market this week as compared with last
week. The offerings were considerably less, but
the character of the market was much the same.
Sales were held only on three days, there being
none at any house on Friday.

"The market, viewed as a whole, was good,
and a steady and firm feeling prevailed, with the
exception, perhaps, of Thursday, when the mar-
ket was somewhat irregular. The bidding was
of the careful kind, one or two of the big buyers
seeming to hold off a bid or two rather than ad-
vance the market. But for all that, satisfactory
prices were realized, as is shown by the per cent-
age of rejections, which is small, giving evidence
that the sellers were generally pleased with the
prices obtained.

"The low grades were in the lead again, and

as the condition was good, in most cases, the
bidding was active on them. There was no dis-
crimination this week between red and color
grades, both kinds being in equal demand.
Lugs of good quality also received considerable
attention.

"The explanation of the very light breaks for
this time of the year must be attributed to the
speculation in regard to the growing crop. The
reports that have been spread that the crop will
be short and much damaged by the long period
of hot, dry weather have induced many holders
of tobacco to hold on with a hope that the mar-
ket will advance considerably this fall. Since
the conjecture about the growing crop is by no
means a sure thing, it looks like a mistake for
shippers to neglect the present market."
